3. Menu admin, recap final participant (<http://ictcred.undip.ac.id/recap>)

The screenshot shows a web browser window with the address bar displaying `ictcred.undip.ac.id/recap`. The page content is a dark-themed error message from Symfony. The error is a `FatalThrowableError (E_ERROR)` with the message `Class 'ZipArchive' not found`. The stack trace shows the error occurred in `./vendor/phpoffice/phpspreadsheet/src/PhpSpreadsheet/Writer/Xlsx.php:210`. The code snippet around line 210 shows the creation of a `ZipArchive` object. The arguments section shows the error message: `1. "Class 'ZipArchive' not found"`. The environment and details section is empty.

4. Menu admin, recap author (<http://ictcred.undip.ac.id/recapauthor>)

The screenshot shows a web browser window with the address bar displaying `ictcred.undip.ac.id/recapauthor`. The page content is a dark-themed error message from Symfony. The error is a `FatalThrowableError (E_ERROR)` with the message `Class 'ZipArchive' not found`. The stack trace shows the error occurred in `./vendor/phpoffice/phpspreadsheet/src/PhpSpreadsheet/Writer/Xlsx.php:210`. The code snippet around line 210 shows the creation of a `ZipArchive` object. The arguments section shows the error message: `1. "Class 'ZipArchive' not found"`. The environment and details section is empty.
